PROFILE

Full-stack developer with a particular interest in frontend and data visualization. I build products end to end, from backend services and microservices to interactive interfaces that turn complex data into decision-making tools. Looking for full-stack roles, ideally where the product's visual and analytical layer is central.

SKILLS

Languages	Python, Java, JavaScript, TypeScript, SQL
Technologies	React, Angular, Flask, FastAPI, PostgreSQL, Docker, AWS
Tools	Power BI, Tableau, Unity

EXPERIENCE

Jan. 2026 – Jun. 2026	Universidad de los Andes - Graduate Assistant (Digital Transformation Vice Rectorate) Developed solutions for automating institutional processes and performed quality assurance (QA), including functional validation, integration testing, and support for software development.
Jan. 2025 – Dec. 2025	Universidad de los Andes - Graduate Assistant Developed and maintained full-stack functionalities for the <i>No Estás Solx</i> platform, including backend services and frontend improvements, optimizing data flows and system performance.
May. 2024 – Sep. 2025	Verivolt - Full-Stack Developer Led frontend development for process automation solutions in hardware operations, including user interface design, data visualization, and integration with backend systems, improving usability of system workflows.
Jul. 2024 – Dec. 2024	Universidad de los Andes - Research Assistant Implemented core algorithmic logic, designed the data model, and developed and implemented frontend interfaces for a service within <i>No Estás Solx</i> .
Jun. 2024 – Aug. 2024	Cornell University - Data Analyst Analyzed, cleaned, and visualized data on mental health in pregnant women using the PRAMS database, applying statistical methods to generate insights.
Aug. 2022 – Jun. 2024	Universidad de los Andes - Teaching Assistant Supported the <i>Languages and Machines</i> course, assisting over 40 students with problem-solving, grading, and academic follow-up.

EDUCATION

2025 – 2026	Universidad de los Andes - Colombia M.Sc. in Systems and Computer Engineering (Grad: Oct 2026)
2020 – 2025	Universidad de los Andes - Colombia B.Sc. in Systems and Computer Engineering
